Stanford Achievement Test Series, Tenth Edition. The benchmark of excellence in achievement testing for more than 80 years, the Stanford 10 provides the valid and reliable data needed for an objective measure of student progress toward content standards and high expectations. The Stanford Achievement Test Series, the most recent version of which is usually referred to simply as the "Stanford 10" or SAT-10, is a set of standardized achievement tests used by school districts in the United States and in American schools abroad for assessing children from kindergarten through high school. Moved Permanently. The document has moved here. An Achievement/Ability Comparison can be made when Stanford 10 is administered with OLSAT® 8. Test design reflects curricula and best instructional practices. All questions are unique across forms and levels. Each item is designed to measure up to four achievement parameters: content cluster, process cluster,
